West Allis, Wis.

Dear Oms:

At a recent meeting of our association at which some of the ARRL executive staff were present, considerable discussion on the National Convention situation was held. It was finally decided that the surest way of reaching all the amateurs and getting their views on the question would be to place an ad in QST, with coupon, asking them whether they are or are not in favor of continuing National Conventions. At the suggestion of 2. 3. Schweitzer our SCM of Illinois, subscriptions were started immediately which resulted in the collection of Forty-five dollars that evening. This of course is not enough for an ad of sufficient size to be effective--a full page amounting to about one-hundred and seventy dollars. We are therefore respectfully soliciting the co-operation of other amateur organizations who believe as we do regarding National Conventions.

It is not the desire of the CRTA to run the next National Convention. We are protesting the action of the Board of Directors merely because of the principles involved and would much rather see some other city get the convention.

The opinions of the members in your club and of the amateurs in your district will be greatly appreciated.

Very truly yours

Chicago Radio Traffic Ass'n

L. J. Prazak, Sec'y.
